

COMPACTO® BASIC XM

Compact Seat with
Mechanical Suspension

GRAMMER

TECHNICAL DATA

COMPACTO® BASIC XM

The Compacto Basic XM has a mechanical suspension with reduced travel of 60 mm. A single lever in front is used to set the seat's height and adjust it to the user's weight. An additional height limiter also ensures outstanding comfort in very small driver cabs with a low resonant frequency. The ergonomically designed two-piece seat shell made of synthetic leather with air channels ensures fatigue-free working.

Features ● Standard ○ Optional

	COMPACTO® Basic XM
Article no. Imitation leather	1347713
